UML, Unified Modeling language

Rédaction : Pierre Attar

Recommandation(s) liée(s) : *XMI*

« *The Unified Modeling Language (UML) is a language for specifying, visualizing, constructing, and documenting the artifacts of software systems, as well as for business modeling and other non-software systems. The UML represents a collection of the best engineering practices that have proven successful in the modeling of large and complex systems.* »

Source. *Unified Modeling Language (UML), version 1.5*
